Subject: Proposed Sweeney Development

Dear Ms: Whetstone:

1. We are writing to express very strongly our concern about the proposed Sweeney project and the negative impact it will have on our neighborhood. The project will bring additional traffic, noise, and congestion to our quiet residential area. The streets are narrow and not built to handle this kind of traffic. The proposal also will significantly change the character of the Old Town neighborhood in which we live. We are residents of 920 Lowell Ave, at the top of the hill, and so would be severely impacted by the proposed development. Also Empire and Crescent, which we use as a walking route, will also be severely impacted. We are very much against this development and wish to register our protest against it.

Sincerely,

Christine & Nathan Hult
2735 N 1250 E
Logan, UT 84341

Response to Christine & Nathan Hult

Paragraph 1.

Your concern is noted. However we believe, Treasure Hill, when considered in the context of the entire Sweeney Master Plan, is a very positive thing for the neighborhood. Benefits include the Town Run, Town Lift and Town Bridge, 110 acres of usable open space and 4 miles of hiking and biking trails. We do understand there will be some additional traffic and noise but feel these impacts are offset by these positive impacts plus others including, improvement of Crescent Walkway, a new ski high speed lift to the top of Payday, expanded snow making, earlier opening of the Town Lift.
