To whom it may Concern,

This letter is to verify that Comcast service is available to Treasure Hill Subdivision in Park City Utah. Comcast will generally provide all materials and labor to provide broadband services from the property line to the point of service, in a trench provided by the property owner.

The cost of installation, construction and provision of cable service will be part of the contract negotiations with the Owner of the Property or a designated representative. **This letter is not to be considered a contract or guarantee of service.** Furthermore, all permits, licenses and rights of access must be provided by the Owner prior to any provision of services.

Please be advised that we require a minimum of 90 days for project approvals and construction **after we receive a signed contract.** If this is a private development.

Please contact Elysia Valdez at 801-401-3017 before opening utility trenches. We look forward to working with you on this Project; please feel free to contact me with any questions or concerns.

Sincerely,
